MANY MILLIONS IN USE.

SOLD EVERYWHERE.

Gold Medals from all over the World.

Recent Improvements add greatly to their efficiency. They will positively carry much larger and heavier Shades than any other Spring Roller.

Injunctions have been granted by the United States Circuit Courts, prohibiting the manufacture or sale of both the "Eagle" and "Victor" Rollers. They have both been held infringements upon my patents, and cannot therefore be **now** lawfully sold, nor *this Fall*, as advertised by some parties, as they also infringe patents held by me that have not yet nearly expired. All infringers claim originality, superiority and victory, until the United States Courts pronounce their rollers infringements, when they promise to furnish their "better" and "patent protected" rollers to their alleged customers **"as soon as Hartshorn's Patents expire."** They are all imitators, and copy construction of rollers, advertisements, electrotypes, and all. If there was no property in patents, they would be able to offer the trade improvements nearly as rapidly as I could secure patents for my inventions. They or their successors will, after the course of some years, solemnly inform the trade that they can furnish rollers with my improvements of this year "as soon as Hartshorn's Patents expire."

But I need only assure the trade, who have so very generally appreciated the superior quality of my Rollers, and so very generously supplied me with orders for the same, that I will continue to give them the Best Shade Roller manufactured, whether **Stop** or **Balance** Rollers are required, at reasonable prices, and at figures at which they can do business intelligently and with an **assured profit.**
